EXHIBITS

Illinois Seed Grain Show

Illinois Seed Grain Show and Twentieth Annual Utility Corn Show will be held at the *Ball Room of the Urbana-Lincoln Hotel*.

The Corn Show will be open to visitors at 4:30 p.m., Monday, January 8, and will remain open thruout the week. The best hours to visit the show are at 8 a.m. and from 4 to 6 p.m. daily.

Agricultural Engineering

On display at the *Agricultural Engineering Building* will be found power and field machinery, tractors, home equipment, soil erosion machinery, seed cleaning and corn grading equipment, farm building plans, and rural electrification exhibits.

Animal Husbandry

A museum of animal diseases may be seen in the *Animal Pathology Laboratory* from 8 a.m. to 5 p.m. daily.

The purebred and experimental herds and flocks maintained on the *South Farm* may be seen at the same hours.

Dairy Husbandry

Plant practices and operations involved in the preparation of various dairy products may be observed in the *Dairy Manufactures Building*. Best time to see the plant in operation is between 6 a.m. and noon.

The dairy cattle barns on *South Lincoln Avenue* are open to visitors daily. Best hours for seeing the cattle are 4 to 5:30 p.m., when herdsmen or members of the Dairy Department staff will be present to answer questions.

Home Economics

The home economics exhibits in the *Upper Parlors, Woman's Building*, are on subjects of health, nutrition, textiles, clothing, child development, and literature of interest to the homemaker.

Horticulture

Tomatoes and other vegetables growing under glass may be seen at the *Vegetable Greenhouse*.

The more commonly grown greenhouse flowers, as well as many less well-known kinds, will be on display at the *Floriculture Greenhouse*.

Nut fruits, root systems of brambles, and disease specimens are on display in the front hall of the *Horticulture Field Laboratory*.

Insects

An exhibit showing how to protect stored seeds and grains from insect attack is on display at the *Ball Room*

of the *Urbana-Lincoln Hotel*. Methods for the storage of seeds and the use of chemicals for the fumigation of seeds and grains held on farms are illustrated.

Publications

Bulletins, circulars, and other available printed information of the College of Agriculture are on display in the *Auditorium*. Cards are provided on which request may be made for any of the publications desired.

Museums

The Classical Archaeology and Art and the European Culture museums (*top floor, Lincoln Hall*) are open to visitors from 8 a.m. to 10 p.m. Elevator service direct to these museums is available in the north corridor of Lincoln Hall, near the west entrance.

Game Boards

An exhibit of traditional and homemade games may be seen in the *Upper Parlors, Woman's Building*. Ask the attendant in charge for instructions for playing. There will be a special lecture and demonstration by Rev. LOUIS UNGER, Wednesday afternoon at 2:00 o'clock.

MISCELLANEOUS

Movies

Motion pictures pertaining to agricultural engineering will be shown in the *Agricultural Engineering Building* each day during the noon hour. Students will also operate a lunch stand in this building.

U. S. Regional Soybean Laboratory Open House

The U. S. Regional Soybean Laboratory will hold open house for Farm and Home Week visitors from 4 to 5 p.m. Monday, Tuesday, Wednesday, and Thursday in Rooms 218 and 503 *Old Agriculture Building*.

The equipment of this laboratory may be inspected by those who are interested in the development of industrial uses of the soybean.
